

# Anti-Hologram

Superfine polish for the permanent removal of holograms and sanding marks, which leaves a particularly high shine.

## Features & Benefits

- 100% removal of scratches from P2000 onwards – One polish for a wide range of applications
- No Silicones – Bodyshop safe
- Low product consumption – Economical in use
- Low VOC content – More environmentally and user friendly in terms of VOC

P/N	Product	Content	Packaging
86960	Anti-Hologram Blue	1L	Bottle

## Application

Polishing gel for permanent removal of defects such as P2000-3000 sanding marks, rubbing compound swirls or holograms. Leaves a brilliant shiny surface. On all automotive paints, suitable for ceramic anti-scratch paints and new waterbased clear coats. Perfect to use like last step on Polycarbonate. The product doesn't hide imperfections, scratches and holograms with cosmetic oils, but it removes them permanently. For best results use Anit Hologram with 86968 Trapezium Foam Pad.

## Instructions

1. Shake before use.
2. Use a machine speed of 800 - 1800 rpm (free running) with 86968 Trapezium Foam Pad.
3. Apply polish to surface and spread to a thin even layer, using the polishing pad.
4. Polish the paint surface with the machine, reduce the pressure when the film starts to become transparent.
5. Remove remaining material with a microfibre cloth.

## Additional Information

### Hints & Tips

Product designed and developed for a fast and clean use without addition of water. It allows you to see immediately the removal of the defect.

## Technical Information

### General Info:
