

# Wheel Spray

UPDATED 16/1/2017

An acrylic silver paint for restoring the appearance of wheel rims and decorative wheel covers.

Part N°: 86519 500ml Spray

## Features

- Excellent coverage on steel, aluminum, nylon and most plastics
- One component product
- Replicates OEM finish
- Acrylic resin based product

## Benefits

- Time saving
- No mixing, easy to use
- Professional repair
- Resistant to oil and petrol

## Application Method

KENT Wheel Spray is an acrylic based paint, specially formulated to produce an OEM finish giving a tough durable protective coating.

## Instructions for use

1. Clean the surface to be treated with Kent Acrysol until all excess grease or wax has been removed. Allow to dry.
2. If the surface to be treated is corroded, clean up with a wire-brush or sand-blast. Clean again with Kent Acrysol. Apply a thin layer of Kent Galvapro, as needed. In order to speed up drying time, use a hot air gun (max. 150°C)
3. Apply Kent Wheel Spray evenly in a thin layer on the still warm (approx. 20°C) wheel rims or covers.
4. If necessary apply a second coat after approx. 3-5 minutes
