

# A/C LEAK GUARD KIT

To prevent and stop refrigerant leaks in air conditioning systems.

## Features & Benefits

- Suitable for R12, R134a – contains coupling for R134a refrigerant and an R12 adaptor
- Safely seals leaks – effective on rubber, metal, gaskets and O-Rings
- Compatible with all oils – one product for PAG, POE and PAO
- Easy to use – no lengthy training required
- Specially formulated – for slow leaks that can occur over a 6 - 12 month period (or a leak rate up to 700 g/year)
- Contains concentrated A/C dye – ideal for preventive maintenance

P/N	Product	S/C	Packaging
85635	A/C Leak Guard One Shot	LGC	4x30ml
85634	<b>A/C Leak Guard Kit</b>	<b>LGK</b>	<b>KIT of following products</b>
-----	<i>A/C Injection Gun (only available in the Kit)</i>		<i>1 piece</i>
-----	<i>A/C Leak Guard One Shot</i>		<i>2 x 30 ml</i>
-----	<i>A/C High Pressure Side Injection Hose For R134a (only available in the Kit)</i>		<i>1 piece</i>

## Application

KENT A/C Leak Guard Kit is a complete solution for identifying leaks in air conditioning systems with R12, R134a and R1234yf refrigerants. KENT has developed a product which works perfectly in systems with belt driven compressors and all types of PAG A/C oils. It is also ideal as a preventative maintenance. KENT A/C Leak Guard is used to permanently and safely seal A/C leaks in both rubber and metal components. KENT A/C Leak Guard seeks out the oxygen present at the leak point. Combined with the pressure in the system, it pushes through the leak forming a permanent chemical weld at the leak source. To use the product for R1234yf systems, please order KENT A/C Injection Hose for R1234yf separately.

## Instructions

See Data sheets on individual components for instructions for use.

N.B.: To clean any residual product, please use KENT A/C UV Dye Cleaner. Do not use the product in systems with electric driven compressors.

## Technical Information

<b>Consistency:</b>	Fluid
<b>Color:</b>	Light brown
<b>Odor:</b>	Characteristic
<b>Shelf life:</b>	48 months
<b>Custom tariff code:</b>	9026 8080
<b>VOC:</b>	NIL
<b>Flash point:</b>	241 ° C
<b>Density @ 20 ° C:</b>	0.87 g/cm <sup>3</sup>
<b>Solubility in water:</b>	Unsoluble
